washroom hygiene systems

Hygiene Systems are a part of everyday healthy living, essential in promoting well being and creating a comfortable washroom experience.

Fresh & Clean believes good hygiene is essential to keep employees happy and productive.

FRESH & CLEAN
Managed Washroom Programs

washroom hygiene systems

Odour Control

Fresh & Clean has developed a specialist two part program, which guarantees the presence of pleasant aromas in your washroom.

- ✔ Automatic wall mounted air fresheners dispense a measured dose of fragrance at selected intervals.
- ✔ Dispensers are designed to last longer and reduce interruptions to your washroom for servicing.
- ✔ Urinal sanitisers control odours at the source, programmed to automatically clean and deodorise with every flush.

Toilet Seat Sanitising

To ensure a high level of cleanliness is maintained in your washroom, Fresh & Clean offer a flexible and efficient method for sanitising toilet seats.

- ✔ Wall mounted dispensers with spray or wipe options
- ✔ Eliminates bacteria and reduces risk of cross contamination
- ✔ Regular service cycle

Feminine Hygiene

The Fresh & Clean sanitary disposal service is designed to provide maximum comfort for female employees and customers.

- ✔ Units are sanitised with an antibacterial liner to ensure a hygienic disposal method
- ✔ The liner is perfumed, releasing a pleasant fragrance between services.
- ✔ Slim or standard units available

Fresh & Clean also offers nappy disposal and sharps disposal programs that are tailor designed by our friendly service team to meet your specific needs.

Specialist Deep Cleaning and Hygiene Treatments are also available for your washroom.

Why use Fresh & Clean's managed rental services?

- Affordable washroom solutions
- Regular, agreed service schedules
- Tailored program developed for each customer
- No capital outlay is required
- Hassle free and flexible
